About This Game

Sci-Fi Cyberpunk Visual Novel based in a future where telepathic powers are common-place. Meet Jackie - a freelance negotiator who's best friend is a cyber dolphin. Accompany her in an adventure she didn't really ask for. Solve a mystery and maybe make some new friends along the way.

Crystal Chameleon is a choice based visual novel. Make decisions at various places in the game to proceed in a good or bad timeline.

Good luck making the right choices ;)

My expectations for the game were low but holy heck. There are a lot of indie games that deserve more attention. This is definitely not the case. It looks more like a game concept, not a game itself.. My expectations for the game were low but holy heck. There are a lot of indie games that deserve more attention.
